About me

My goal is continuous professional development and growth. It is important for me to learn new technologies in front-end development to constantly improve my skills. Attention to detail is very important to me. I have the communication skills to work in a team. I strive to develop adaptive user interfaces.

Experience

- Kyivstar company

June 2021 - January 2022

Sales Manager

Ukraine, Odessa

My duties at work were:

Counseling clients, and working with clients on the phone.
Helping new employees to adapt.
Selling company services.
Selling apps for better phone performance.
Travel to improve the quality of work.
Working on many tasks at the same time.

- Study Programing

March 2023 - Present

React Blog Project - (React.js , JavaScript, HTML, CSS)

React Booking Project (Using everything I learnt including difficult to apply fuctionalities in order to challange myself)
